

## **My Inspiring Future Career**

Written By

**Crystal Waters, Career Counselor, East Carolina University**

**Doctor of Education Student, Regent University**

Changes are welcomed. Technology increase

Our chances of success, college sounds are released

Learning types are aligned social events through signs

Career fairs equal opportunity resumes presented online

Inspiring to grow to showcase students' styles, exhibit ability

Training facility enhanced studies advance to give students humility

Increasing and accepting different languages and faces

ECU, the university, the platform, gives students internships in different places

Provide balance and resources from Career Counselors to Deans

Being able to provide the students compensation with means

From careers like nursing, technology, engineering, and education

To our website to campus tours one of ECU best-known features

From the campus tours to orientations moving in freshman year

Our purpose our goal is to make students aware overcoming their fears

From Electives to late-night projects we understand the dedication

Their frustration their shortcomings we will provide a solution after building student relation

Our students our vision as the proud Pirates as we were told

When we represent ECU, our motto follow stance becomes bold

Study hard, give advice never be scared take challenges and not fear

After you leave ECU, you'll feel inspired more insightful about your inspiring future career
